(3) the United States reaffirms its ironclad commitment to the North Atlantic Treaty Organization as the foundation of transatlantic security and to upholding its obligations under the North Atlantic Treaty, including its commitment to collective defense under Article 5 of the Treaty;

(4) the unprovoked and illegal full-scale invasion of Ukraine by the Russian Federation has fun-
damentally altered the security landscape in Europe and necessitates the unrelenting support of the transatlantic alliance for Ukraine’s self defense;

(5) welcoming Finland and Sweden as the 31st and 32nd members of the North Atlantic Treaty Organization, respectively, has made the North Atlantic Treaty Organization alliance stronger and has enhanced collective security by increasing the capabilities and stability of the North Atlantic Treaty Organization alliance, particularly in the Baltic Sea region and Northern Europe;

(6) North Atlantic Treaty Organization member countries that have not yet met the two-percent defense spending pledge, as agreed to at the 2014 Wales Summit, should meet the timeline as expeditiously as possible;

(7) it is imperative that the United States and international allies and partners continue every effort to identify, synchronize, and deliver needed assistance to Ukraine as Ukraine continues the fight against the illegal and unjust war of the Russian Federation;

(8) the regional plans, agreed to by all North Atlantic Treaty Organization member countries at the Vilnius Summit in 2023, provide important clar-
ity on the forces, capabilities, and readiness levels needed to defend the North Atlantic Treaty Organization alliance, and allies should move expeditiously to implement the plans;

(9) the United States and fellow North Atlantic Treaty Organization allies should continue long-term efforts—

(A) to improve interoperability among the military forces of North Atlantic Treaty Organization allies so as to enhance collective operations, including the divestment of Soviet-era capabilities;

(D) to expand joint research and development initiatives with a focus on emerging technologies such as quantum computing, artificial intelligence, and machine learning, including through the work of the Defence Innovation Ac-
celerator for the North Atlantic initiative (commonly known as “DIANA”); (10) the European Deterrence Initiative remains critically important and has demonstrated its unique value to the United States and North Atlantic Treaty Organization allies during the current Russian Federation-created war against Ukraine; (11) the United States should continue to work with allies and partners to build permanent mechanisms to strengthen supply chains, enhance supply chain security, and fill supply chain gaps; (12) the United States should prioritize collaboration with fellow North Atlantic Treaty Organization allies to secure enduring and robust critical munitions supply chains so as to increase military readiness; (13) the United States and fellow North Atlantic Treaty Organization allies should expand cooperation efforts on cybersecurity issues to prevent adversaries and criminals from compromising critical systems and infrastructure; (14) the Baltic countries, Estonia, Latvia, and Lithuania, continue to serve as model allies, including through their defense investments, moderniza-
tion of key capabilities, and their steadfast assistance to Ukraine, among myriad other examples;

(15) the security situation in the Western Balkans remains dynamic, and military-to-military cooperation among the United States, the European Union, and fellow NATO allies to maintain peace and security in the Western Balkans is critically important; and

(16) the efforts of the Russian Federation to assert military, political, and economic dominance in the Black Sea, though unsuccessful, threaten the peace and stability of the littoral countries of the Black Sea and should remain a focus area for the North Atlantic Treaty Organization alliance.

(a) Sense of the Senate.—It is the sense of the Senate that—

(1) on October 12, 2023, the Congressional Commission on the Strategic Posture of the United States (referred to in this section as the “Commission”) released a final report entitled “America’s Strategic Posture”;

(2) the report, the consensus product of a 12-person bipartisan commission established by section 1687 of the National Defense Authorization Act for Fiscal Year 2022 (Public Law 117–81; 135 Stat. 2126) and led by the Honorable Madelyn Creedon and former Senator Jon Kyl—
(A) examined the latest intelligence available on current and projected global strategic threats;

(B) assessed the adequacy of existing United States strategies, policies, and capabilities for addressing such threats; and

(C) provided a series of findings and recommendations, which were subsequently made available to the President, Congress, and the general public;

(3) the findings of the Commission reflect a deteriorating international security situation that is becoming far more dangerous for the United States and its allies and partners;

(4) the rapid and unprecedented growth of the nuclear arsenal of the People’s Republic of China, the massive expansion of its armed forces, and its increasingly aggressive stance across all domains have forever altered the global balance of power;

(5) the Government of the Russian Federation owns, and will likely maintain for the foreseeable future, the largest nuclear arsenal on Earth;

(6) the Government of the Russian Federation—
(A) continues to expand and diversify its nuclear arsenal, air and missile defenses, and space, cyber, biological, and chemical weapons capabilities; and

(B) regularly flaunts such capabilities to threaten and intimidate regional neighbors;

(11) While the United States served as a bulwark against the Soviet Union, enduring the distant existential threat the Government of the Soviet Union posed for decades, and defied the persistent daily threat of terrorism from the earliest days of the 21st century, the United States has never faced a more complex set of global threats than are arrayed before it as of the date of the enactment of this Act; and

(12) The United States, in order to maintain its position in the international order, must recognize this new threat environment, and urgently take prompt, decisive action to transform its aging array of defenses, renovate long-neglected industrial capabilities, rebuild a strong and vibrant workforce, rebuild allied confidence in the support and leadership of the United States, and craft a common, unifying vision of purpose for all United States citizens.

(b) Statement of Policy.—It is the policy of the United States that—

(1) the deterrence of strategic attacks, and in particular nuclear attacks, against the United States and its allies is the highest defense priority of the United States; and

(4) A description of any anticipated impacts to the Defense Industrial Base or the Nuclear Security Enterprise required to support a recommendation, and any projected net benefits to the economic competitiveness of the United States.

(5) A description of the impact, if any, of implementing a recommendation with respect to other activities of the Department of Defense or the Department of Energy.

(6) Such other information as the Chairman of the Nuclear Weapons Council determines relevant to the review.

(c) FORM.—The review required by subsection (a) shall be submitted in unclassified form, but may include a classified annex.
